SEO Technical Audit Report

Sesoris - Home & Living Accessories

<https://www.sesoris.com>

Report Date	21 March 2026
Prepared By	Creativism Digital Marketing Agency
Project	Sesoris E-Commerce Website
Scope	8 SEO Technical Components
Status	All Issues Fixed & Deployed

Executive Summary

This report covers the SEO Technical Audit for sesoris.com, evaluating 8 critical technical SEO components. All identified issues have been fixed and deployed to production via Vercel.

Component	Before	After	Action Taken
Sitemap.xml	PASS	PASS	No change needed - 187 URLs indexed
Robots.txt	PASS	PASS	No change needed
Canonical URLs	FAIL	PASS	Fixed - 16 pages added metadata + canonical
Mobile Responsive	PASS	PASS	Verified all 27 pages - no overflow
Page Speed	N/A	Optimized	All images compressed to WebP ≤ 100KB
Core Web Vitals	N/A	Optimized	SSG + CDN + security headers
Structured Data/Schema	FAIL	PASS	Schema added/fixed across all page types
404 Page	PASS	PASS	No change needed - custom page with noindex

Detailed Findings

1. Sitemap.xml

Status: **PASS** - Auto-generated by Next.js via `src/app/sitemap.ts`

Category	Count	Priority
Static pages	18	0.3 - 1.0
Category pages	6	0.7
Product pages	17	0.8
Blog articles	146	0.6
Total URLs	187	-

2. Robots.txt

Status: **PASS** - Configured via `src/app/robots.ts`

Disallows: `/api/` , `/account/` , `/cart/` , `/checkout/` , `/login/` , `/register/` , `/wishlist/`
Sitemap: `https://www.sesoris.com/sitemap.xml`

3. Canonical URLs

Status: **FIXED** - 16 pages were missing metadata entirely

Issue: 16 static pages had no `export const metadata` - missing title, description, canonical URL, and Open Graph tags.

Fix: Added complete metadata exports to all pages. For 3 client-component pages (contact, shop, track-order), extracted interactive logic into separate client components to enable server-side metadata export.

Page	Canonical URL
About	/about
Contact	/contact
FAQ	/faq
Shipping	/shipping
Returns	/returns
Size Guide	/size-guide
Careers	/careers
Press	/press
Privacy	/privacy
Terms	/terms
Shop	/shop
Best Sellers	/best-sellers
New Arrivals	/new-arrivals
On Sale	/on-sale
Collections	/collections

Track Order	/track-order
-------------	--------------

4. Mobile Responsive

Status: **PASS** - All 27 pages verified

All pages tested on 375px mobile viewport using Playwright automated testing. Zero horizontal overflow detected.

5. Page Speed

Status: **OPTIMIZED**

Optimizations applied:

- All images converted to WebP format (0 PNG/JPG remaining)
- All 336 images compressed to max 100KB
- Google Fonts loaded via `next/font` with swap display
- Images use Next.js Image component with lazy loading
- Static generation (SSG) for all pages via Vercel CDN
- Security headers: HSTS, X-DNS-Prefetch-Control added

6. Core Web Vitals

Status: **OPTIMIZED**

Architecture optimized for good CWV scores:

- **LCP**: Static generation + Vercel CDN delivery
- **FID/INP**: Server components by default, minimal client JS
- **CLS**: Fixed image dimensions, font preloading via next/font

Security headers configured:

Header	Value
Strict-Transport-Security	max-age=63072000; includeSubDomains; preload
X-Content-Type-Options	nosniff
X-Frame-Options	DENY
Referrer-Policy	strict-origin-when-cross-origin
Permissions-Policy	camera=(), microphone=(), geolocation=()
X-DNS-Prefetch-Control	on

7. Structured Data / Schema

Status: **FIXED** - Multiple schemas added and corrected

Schema Type	Location	Status
Organization	Root layout (all pages)	Fixed : logo.webp, IG @sesoris_com, X @sesoris_com
WebSite + SearchAction	Root layout (all pages)	PASS
Product + Offer	Product pages (/product/*)	PASS
AggregateRating	Product pages (if reviews)	PASS
BreadcrumbList	Product pages	PASS
BreadcrumbList	Blog pages	PASS
BreadcrumbList	Category pages	Added

CollectionPage	Category pages	Added
BlogPosting	Blog article pages	PASS
FAQPage	FAQ page	PASS

8. 404 Page

Status: **PASS** - Custom 404 page at `src/app/not-found.tsx`

- Clear "404 Page Not Found" messaging
- Navigation links: Back to Home, Browse Products
- `robots: { index: false, follow: false }` to prevent indexing
- Consistent design with site branding

Google Sheet Update

SEO Tracker spreadsheet updated for Sesoris (Row 13, Columns O-V):

Column	Field	Value
O	Sitemap.xml	TRUE
P	Robots.txt	TRUE
Q	Canonical URLs	TRUE
R	Mobile Responsive	TRUE
S	Page Speed ≥ 90	FALSE*
T	Core Web Vitals	FALSE*
U	Structured Data/Schema	TRUE
V	404 Page	TRUE

* Page Speed and Core Web Vitals require Lighthouse testing on production URL for accurate scoring. All optimizations have been applied.

Deployment

Item	Value
Repository	github.com/mcsyauqi/sesoris
Branch	claude/sesoris-ecommerce-build-yZdJu
Commit	seo: add metadata, canonical URLs, schema to all pages
Files Changed	61
Production URL	https://www.sesoris.com
Vercel URL	https://sesoris.vercel.app
