

Rak Serbaguna Multifungsi Landing Page Evidence

Card: Buat Landing Page "Rak Penyimpanan Multifungsi"

Status: Done - implemented, deployed, verified live

Generated: 2026-05-28T11:43:15

Evidence summary

- Created standalone Next.js route `/rak-serbaguna-multifungsi` targeting rak penyimpanan multifungsi and rak serbaguna keyword cluster.
- Added comprehensive Indonesian content: hero, intent intro, choosing guide, comparison table, room bundles, product recommendations, FAQ, and CTA.
- Added JSON-LD: BreadcrumbList, FAQPage, and ItemList with nested Product/Offer data in IDR.
- Added internal links from `/shop`, `/category/home-living`, and `/category/kitchen-dining`.
- Added URL to root sitemap and submitted sitemap through Search Console API; direct API returned HTTP 204.
- Committed and pushed final branch head `eabe5c9` after rebase; deployed production and aliased to `https://www.sesoris.com`.
