

Sesoris Sitemap GSC 7-Day Monitor Evidence

Card: Monitor sitemap sesoris.com 7 hari ke depan (GSC warnings tetap 0)

Status: Done - monitoring completed; follow-up created for indexed ratio

Generated: 2026-05-28T11:43:15

Evidence summary

- Search Console sitemap API check for sc-domain:sesoris.com completed on 2026-05-28.
- Primary sitemap <https://www.sesoris.com/sitemap.xml>: warnings 0, errors 0, pending false, submitted 411, indexed 0 in sitemap-list payload.
- RSS feed and blog sitemap also show warnings 0 and errors 0.
- Coverage issues summary sampled 50 URLs: 14 Submitted and indexed, 36 Discovered - currently not indexed, indexed ratio 28%, warnings none, errors none.
- Live sitemap returned HTTP 200 and was parsed successfully; after deploy, sitemap includes the new rak-serbaguna-multifungsi URL.
- Because indexed ratio target was not met, a separate follow-up To Do card was created for indexing uplift instead of using Review.

Checks

Metric	Result
sitemap.xml warnings	0
sitemap.xml errors	0
sitemap.xml pending	false
sitemap.xml submitted	411 before new deploy, 412 live URL count after deploy
feed.xml warnings/errors	0 / 0
blog/sitemap.xml warnings/errors	0 / 0
Coverage sample	14 Submitted and indexed, 36 Discovered - currently not indexed
Indexed ratio	28% sampled; below 60% target
Follow-up	Created To Do for indexing uplift / Discovered-not-indexed investigation
